PROJECTS

Project: Title   🐙 username/project
Stack: Tech Stack Used, e.g., Python, FastAPI, React, Docker, etc.
- Developed a full-stack application that does something interesting.
- Implemented features such as X, Y, and Z, resulting in A, B, and C.
- Used technologies like X, Y, and Z to achieve the project goals.

Project: Title   🐙 username/project
Stack: Python, MediaPipe, OpenCV, SVM, NumPy, System Automation, HCI, Parallel processing
- Developed a full-stack application that does something interesting.
- Implemented features such as X, Y, and Z, resulting in A, B, and C.
- Used technologies like X, Y, and Z to achieve the project goals.

SKILLS

Languages	Python, TypeScript, JavaScript, C, C++
Backend	FastAPI, Django, DRF, PostgreSQL, Supabase, Tortoise ORM, Prisma ORM, SQL
Frontend	NextJS, React, React Native, Sveltekit, AstroJS, TailwindCSS, ShadCN, HTML, CSS
DevOps/Tools	Docker, Docker Compose, Portainer, Railway, GitHub Actions, Typer, Bash, Git, GitHub, CI/CD, Linux
AI/ML/CV	MediaPipe, OpenCV, SVM, LangChain, ChromaDB, RAG pipelines, Prompt Engineering
Concepts	Microservice Architecture, Operating Systems, REST/RESTful APIs, OOPS, Parallel Processing

AWARDS

</> **Position – Event**   📅 Month Year
About what you did at the event. What you built/achieved. Add link like below if it was a hackathon
🐙 username/project

🏆 **Position – Event**   📅 Month Year
Or just add your description here if there is no project or add a link to some proof like a certificate

EDUCATION

BACHELOR OF TECHNOLOGY, COMPUTER SCIENCE
Vellore Institue of Technology   📅 2023 – 2027
